

## Furnishing with light

Light technology meets design precision. Visual comfort finds its most rational form, exploiting the simplicity of pure geometry to create a scenographic effect.

### DALI version

The Pool range of products offers the possibility to select the recessed, ceiling-mounted and suspension versions with the DALI dimming protocol: given the large dimensions of the lamps and the extensive overall power achievable, opting for the versatility of the DALI solutions considerably simplifying the management of the various light parameters is of crucial importance.

## Multiple installation

Pool offers a range of products capable of meeting any project needs; irrespective of the type of installation required (recessed, surface or suspension) the body is fully concealed from view, while the slim polycarbonate diffuser offers low luminance, which translates into a soft and comfortable light; or even more it creates a striking light circle, in the version with perimeter circle.

## Controlled emission

The opaline polycarbonate diffuser guarantees full control of the light emission, thus allowing to combine and direct the photons emitted by the light source without lenses or filters. Visually, the effect is cosy, the light appears soft and well diffused.
